

"Working with the Atlanta BBC has helped us learn & discover some of the latest technologies & innovations that are available in the energy & water efficiency & sustainability space. We have been able to implement a number of strategies that have resulted in significant financial savings, as well as allowing us to be better environmental stewards of our community."

Victor R. Clements,
The University Financing
Foundation, Inc.

BUILDING SPECS:

Owner: TUFF Yamacraw LLC

Year Built: 2002

Square Feet: 200,459

Floors: 5

Structure: Steel, Glass &
Cladding

Building Use: Office & Research

No. Of Occupants: 400

ENERGY STAR Score: 62

TECHNOLOGY SQUARE RESEARCH BLDG.

WE TOOK THE CHALLENGE

20% WATER & ENERGY REDUCTION BY 2020

Georgia Tech Research Institute has had a long commitment to high performance buildings and sustainability, and joined the Atlanta Better Buildings Challenge in November 2011. Joining the Atlanta BBC was a commitment not only to the University's performance, but also to the community as a good citizen helping to carry Atlanta forward. Georgia Tech Research Institute hopes to lead other universities to join the Atlanta BBC and support the effort to help Atlanta become a top-tier sustainable city.

PROJECTED SAVINGS:*

WATER

1,293 GALLONS
saved annually

31 BATHTUBS**
filled each year

ENERGY

1.5M KWH
saved annually

644 HOMES
powered for one year

DOLLARS

\$100,000
saved annually

HIRING 2 NEW EMPLOYEES
each year

CARBON

3,590 METRIC TONS
saved annually

748 PASSENGER CARS
removed from the road for one year

20% REDUCTION STRATEGY BY 2020

Technology Square Research Building began its retrofit effort just before joining the Atlanta Better Buildings Challenge in late 2011, but quickly benefited from the Atlanta BBC assessment. The Atlanta BBC assessment provided 15 additional energy and water saving solutions that spanned from lighting retrofits to additional controls, with estimated annual savings of over \$80,000 per year. The majority of recommendations were operational or controls and sensor changes. The building moved quickly into implementation and has completed all upgrades saving 22% on electricity and water costs as compared to the 2009 baseline.

COSTS:***

\$61,293

TOTAL:

15

DOLLARS SAVED:***

\$100,000 Annually

RETURN ON INVESTMENT:***

1.4 Years

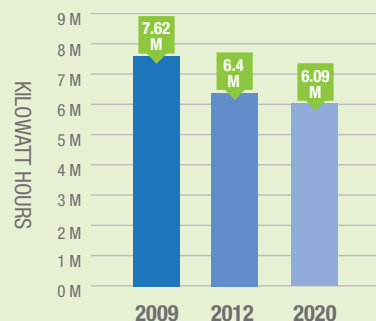

Project Examples:

- High Efficiency Toilets
- Urinal Flush Valve Upgrade
- Implemented A Condensate Recovery Systems For Water Reuse

Project Examples:

- Global Temperature Setpoints
- Supply Air Temperature Reset
- Stairwell Motion Sensors

ADDITIONAL BENEFITS

DOLLARS PUT INTO THE COMMUNITY:***

\$61,293

RESOURCES USED

BUILDING ASSESSMENT:

CLASSES/EVENTS ATTENDED:

The lunch and learn sessions were very beneficial, helping Technology Square Research Building gain a broader understanding of the opportunities and solutions available to help them meet their building performance goals and save on operational costs.

*Projected savings were determined using www.epa.gov/cleanenergy/energy-resources/calculator.html#results **based on a 42 gallon tub

Estimated figures based on assessments performed as part of the Atlanta Better Buildings Challenge *Kitchen equipment, vending machine upgrades, etc
